

Unit 12 Chain game cards (p. 175, 5d)

Procedure: Download and print two copies of this sheet. Keep one sheet intact so you can help the learners if there are problems. Cut out the cards on the second sheet, mix them up, and give out all the cards to the students. If there are fewer than 16 learners in the class, some will get more than one card. Ask learners to read the information on the cards and check for understanding. The teacher begins the game by opening a book. The student with the first card should then go to the board as described on his or her card. The chain continues as each learner carries out the action described on the cards.

1 When someone opens a book, go to the board.	2 When someone goes to the board, ask the time.	3 When someone asks the time, say the time.	4 When someone says the time, walk around the class.
5 When someone walks around the class, say your telephone number.	6 When someone says a telephone number, describe what the teacher's wearing.	7 When someone describes what the teacher's wearing, say the page number in the book.	8 When someone says the page number in the book, sit down.
9 When someone sits down, write your name on the board.	10 When someone writes his or her name on the board, stand next to the teacher.	11 When someone stands next to the teacher, open the door.	12 When someone opens the door, tell your partner your birthday.
13 When someone says his or her birthday, talk about your last holiday.	14 When someone talks about a holiday, order your favourite meal in a restaurant.	15 When someone orders a meal in a restaurant, put your hand up.	16 When someone puts his or her hand up, say "Well done!"
