

Unit 8, lyrics “Star Signs”

She's a Virgo, the patient type
Great for Geminis
Even their kids and their two pets
Have the perfect signs

One day somebody told him of
Chinese astrology
Life was more complicated then
Because suddenly

Their cat was a monkey
And their rabbit was a tiger
His wife was a dragon
And their children were a sheep and a horse
And he felt
like a poor old dog

Then a good friend explained to him
What these signs really mean
And found out that it's not so bad
Though it sounds so weird

That their cat is a monkey
And their rabbit is a tiger
His wife is a dragon
And their children, they're a sheep and a horse
And with them
He's a happy dog

Cause their cat is a Leo
And their rabbit is a Taurus
His wife is a Virgo
And their children, they're a Libra and a Capricorn
And now they'll buy a dog
