

Unit 2, lyrics “Online Booking”

Country cottage, bedrooms: three, very close to the sea;
A private garden, lovely trees, and a brand new TV.
There's a dishwasher, an oven and fridge, and of course cutlery!
We've got fast WiFi and clean beds, a price too good to believe.

My first and only online booking, it seems that I've found just the perfect place,
Who cares they say you should first look at what the reviewers say about their stays.

Well it's true: there's bedrooms, three, but twenty miles from the sea;
A tiny garden, no grass, no trees, some hours electricity;
The beds are clean, the bedding not, the water's never hot.
Too late I saw reviewers agree, that price is hard to believe!

My first and only online booking, it seemed that it was just the perfect place,
But now I know you should first look at what the reviewers say about their stays.

Oh-oh, online booking!
Oh-oh, online booking!
